# Camille Massey

PhD Student

## Discipline(s)

Behavioral Economics, Food Economics, Consumption Economics

## Activities / CV

### MY THESIS

My PhD dissertation focuses on the impacts of time constraints on food choice in the workplace. Long working hours, irregular schedules, or night shifts, might all have an impact on both the quantity and the quality of food consumed. However, little scientific data is available regarding eating practices in the workplace, and the links between time and food choice remain understudied and unclear. The objective of my work is to issue evidence-based recommendations for the conception and implementation of solutions favoring healthy diet for time-constrained workers.

- [Summary of the thesis](#)

### MY PROFESSIONAL EXPERIENCE

- June 2017-today: PhD in behavioral economics
- 2016-2017: social insights account manager in communication agency
- 2013-2015: MSc Consumer Studies (Laval University, Quebec, Canada)
- 2012: social insights analyst in communication agency
- 2011: MSc Marketing (Sciences Po Paris, France)
